***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by USW 6,398,525 B1 to Cooper (Cooper'525). Cooper'525, in the embodiment of figures 13-16 for example, teaches a molten metal pump including a motor shaft and rotor shaft connected by a rigid coupling to form a drive shaft, in which the rotor shaft includes a keyway in it's outer surface (see col. 8 lines 47-52 for example, where the outer surface of the rotor shaft is contoured and includes a hole or keyway removable insertion of a bolt, thereby meeting the definition of a keyway), thereby showing all aspects of the above claims.

***Response to Arguments***

Applicant's arguments with respect to claims 1-7 and 38 as now amended, have been considered but are moot in view of the new ground(s) of rejection.
